INTRODUCTION

Graduate of Degree in Fine Art, and major in Painting and minor in Art Liberal studies at UiTM in 2013, and currently interested in ready-made art especially in Malaysia art scene. The pursuit of this particular art form started in the studies in 2012, which was influenced by Marchell Duchamp, Jasper John, and even Martin Heidegger. Most of my artwork that got exhibit are not commonly accepted by public, especially the Malaysian art scene. Other than commercial exhibition, I also have involved in art for community, the reason was, that I found the experience of connecting through people via art is quiet interesting and also as a way to give back to the community. There have been two project that I was involve and that was Padang Jawa Art Street and also an NGO project from Marecet about the dolphin around Malaysia marine habitat ecosystem. I also had done a social experiment on the people that is color blind, and participate them in the interaction of looking at a painting, this was experimented during my studies in 2010.
